## Winemaker Notes

2020 tried to smoke us and '21 tried to roast us, but '22 tried to freeze us with March snows before budbreak and a hard frost following. While many of our hillside blocks made it through without loss, at lower elevations where those hills flatten out in Le Puits Sec, La Grive Bleue, and Torres Hill there was a notable reduction in yields. The parts of vineyards that didn't see any losses still suffered delays and harvest started at the end of Sept. and continued well into Oct. At this early point in their lives, the '22s are reminding us of a friendlier version of the 2010s.

This is a lovely vintage of Croft! The richness of Mt. Pisgah,... AVA comes through as raspberry runs to pomegranate and blood orange heads to tangerine and are tied together with a savory touch of medicinal roots. Think of your family elder making a bumbleberry crisp while another is roasting a mojo-rubbed pork shoulder on the grill.
